

What we do, why it matters: An alternative to the state ACA marketplace for Individuals.

Key Points:

Plans are owned by a single individual but are still offered on a group basis and rate.

With a quick 2-5 minute application, you are on your way to qualifying for our plan.

Coverage is provided by the national Cigna PPO network, or PHCS for our RBP Option.

The same level and depth of coverage you would see in a Fortune 500 company.

For those who qualify, typical savings range from 20-40%, with better coverage.

Eight deductible options ranging from the \$1,000 Classic to the \$7,350 Value.

MEET KATE

You probably know Kate, as she represents a number of business owners across the country.

33% SAVINGS

Kate is a small business owner who runs a children's store. She currently doesn't offer health insurance to her employees due to the high costs associated with contributing to their plans. As a result, both she and her employees are left with the ACA Marketplace as their only option for coverage.

Kate's financial advisor contacted OneHealth because she and her husband were paying nearly \$1,950 per month through the ACA Marketplace, and they were dissatisfied with their provider network and plan coverage.

In just a few minutes, Kate applied and **saved \$650 per month**. More importantly, she now has a plan that provides her with peace of mind in case of any unforeseen events.

Kate also informed her employees about OneHealth and how to get a quote, and we were able to assist two of them as well.

TESTIMONIALS

Hear it from our clients, not us.

I thought I was stuck with my state's marketplace plan, paying too much for coverage that didn't meet my needs. Then I found OneHealth. Switching was easy, and now I'm saving significantly each month with a plan that fits my needs much better. I finally feel like I have the right coverage and the support I was missing before."

— Kate L., Business Owner

"Finding the right benefits for my small business was always a hassle—until we discovered OneHealth. They made the process simple and saved us money by lowering our monthly premiums while offering better coverage through a national PPO network. Our employees are happier, and so am I. OneHealth has been a game-changer for us."

— Sarah M., Small Business Owner
